IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring and Reporting Requirements Not Met for Bakers Acres.

Our water system violated drinking water requirements over the past year. Even though it is not an emergency, as our customers, you have a right to know what happened and what we are did to correct the situation(s).

“For more information, please contact **John Baker** at **609-296-2664** or 230 Willets Ave, Little Egg Harbor, NJ 08087.”

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether our drinking water meets health standards. During the compliance period of **4/1/2025 to 6/30/2025** we completed all monitoring and testing; **however, the sampling was performed on 3/18/2025, which was prior to the required sampling period** for **Nitrate**. Therefore, we cannot be sure of the quality of your drinking water during that time ***(even though Baker’s Acres was not open during the improperly timed water testing and does not open until May 1 of every year).***

The table below lists the contaminant(s) we did not properly monitor and report during the last year, how often and when we are supposed to sample, how many samples we are required to collect, how many samples we took, and if applicable, the date on which follow-up samples were (or will be) taken.

Analyte	Required sampling frequency or sampling period	Number of samples required	Number of samples collected	When samples were or will be taken
Nitrate	4/1/2025-6/30/2025	1	1	3/18/2025

What should I do?
There is nothing you need to do.

However, if you have specific health concerns, a severely compromised immune system, have an infant, are pregnant, or are elderly, you may be at higher risk than other individuals and should seek advice from your health care providers about drinking this water.

What is being done?
Sample results were submitted. We will ensure that sampling is performed in the correct time period in the future.

“For more information, please contact **John Baker** at **609-296-2664** or 230 Willets Ave, Little Egg Harbor, NJ 08087.”

Information on our water system, including drinking water results, may be found on the New Jersey Department of Environmental Protection’s Drinking Water Viewer website available at https://waterviewer.nj.gov/.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by **Bakers Acres**, Water System ID#: NJ1516307.
Date distributed: 11/25/26.
